for the whole state. So that's another reason that I'm still concerned about this being spent just in Omaha and Lincoln when we should be spreading it across the state. So, with that, I think that that's...I think I'm going to support Senator Janssen's amendment and hope the rest of you do. If...if he wants anymore of my time, I'd give him a little bit of my time, if he wants it. Thank you.

SPEAKER KRISTENSEN: Senator Janssen.

SENATOR JANSSEN: Thank you, Senator Jones. As I said before, proportionately, we are probably not right just asking for 10 percent. Metropolitan area of Lincoln and Omaha I would say probably comprise about...oh, over one-third of the population of the state. So I'm not asking for two-thirds of this money; I'm asking for 10 percent, 10 percent. I don't think that's outrageous. It certainly would be going to the same types of endeavors that the money is supposedly to go to in the two cities. It would go to the same types of projects. City of Omaha will never...will not be satisfied with what they're getting. I knew that was going to happen this past summer. There were Senator Lynch, and Senator Vrtiska, Senator Wehrbein, and I and Senator Schmit went to Omaha and met with...with some officials. Had a very, very, nice meeting with them. They showed up where the...where the new park or whatever it is, is going to be...

SPEAKER KRISTENSEN: One minute.

SENATOR JANSSEN: ...located and showed us what we were doing and cleaning that area up. It...it's beautiful. The drawings they had were...it was absolutely fantastic what they're going to do with that project. But...and it's absolutely fantastic what they want to do with Antelope Valley, unless you live in the area that's going to be renovated; those people, I'm sure, aren't too happy with it. But that happens; that's progress, and there's nothing you can do about that. So I'm asking for this 10 percent, annually. Not a lot of money, but I believe it would make the rest of the people in the state of Nebraska a little...make them feel a little bit better on this endeavor than they have been in the past, when we have given the whole
